A proven container for every need.

Rehrig Pacific consistently delivers innovative and sustainable products and services providing real value for communities and haulers throughout North America.

Round Cans™

The Rehrig Pacific Round Can™ is the first round container rigid enough to be emptied manually or with automated lifters. The reinforced top rim, ergonomic handles and triple-drag rail bottom stand up to the rigors of curbside collection where others fail.

The Round Can comes in two sizes, 25 or 32 gallon (95lt or 120lt), which share the same lid. Both can be used for recycling, organic waste or household refuse collection.

Recycle Bins

Rehrig Pacific has the right size and style recycle bin for all your recycling needs:

- **HuskyLite® Bins**
Designed in 14 and 18 gallon sizes for commingled curbside programs where capacity and easy handling are critical.
- **Stacking Bin System**
This is the interlocking stacking system that set the standard for source separation programs.
- **Apartment Recycler (ARB)**
Easy carrying and easy access are hallmarks of this distinctive bin, with its integral handle, open-diamond design and drop front.
- **Office Paper Recycler (ORB)**
An open-diamond design with attractive, textured finish to resist scuffing clearly identifies this container as a desk-side recycler.

Rehrig Pacific Roll-out Carts

Proven to withstand the rigors of today's collection systems, Rehrig Pacific's HuskyLite Roll-out Carts are setting new industry standards for durability and efficiency. Available in 18 gallon through 95 gallon models, for nearly any curbside application, these carts roll easily even with heavy loads. The continuous one-piece handle provides a strong gripping area and the wide wheelbase makes maneuvering easy.

HuskyLite carts are flexible, yet hold their shape even after years of service. A reinforced top lip adds strength and rigidity as do the double drag rail and reinforced bottom. The specially designed wide ground-hugging base helps keep these carts upright and stable.

Options for the Roll-out Carts include internal and external locking lids, which can be made with slots for collecting confidential documents or cutouts for recyclable beverage containers. Wheel options include blow-molded wheels or quiet treaded snap-on wheels that install in seconds.

Roll-out Carts are shipped with lids already attached, saving additional assembly time.

Rehrig Pacific Organic Waste Containers

Rehrig Pacific is proud to offer **Organic Waste Containers** that are proven for quality and performance. Based upon extensive research, testing and customer feedback, Rehrig Pacific Company has engineered the consummate containers for collection of organic wastes.

The Yard Waste Cart, available in 65 and 95 gallon sizes, boasts a superior ventilation system that stimulates aerobic decomposition while promoting proper odor dissemination. This patented system quickly reduces the weight and volume of organic wastes, giving recycling programs the flexibility and cost-savings of bi-weekly collection. An internal, hinged bottom assembly pivots to prevent trapped debris during dumping.

The 40lt (10.5 Gallon) Collection Cart, designed for organic kitchen waste or recyclables, features an attractive tilt and roll design and compact size for easy transport and convenient home storing. The pre-assembled carts are well balanced and have no internal catch points. They are designed with multiple grab areas for easy manual dumping, and have four ground contact points for extra stability.

The Food Waste Container is the clean and easy way to collect and carry organic kitchen waste to the main curbside collection container. The 2 gallon container is also dishwasher safe.
