## STATE OF VERMONT BUILDING COMMUNITIES GRANTS PROGRAMS

The Building Communities Grants Programs consist of five grant programs established and funded by the Vermont Legislature to *"help communities preserve important historic buildings and enhance community facilities"*. All of these grant programs, with the exception of the Barn Grants, require that the applicant be a non-profit organization or municipality. The deadlines for all five occur in the fall, and selections are made by individual boards through an established selection process. All grants require a match; matching funds from local fundraising efforts are encouraged. You may not apply to more than one of the grant programs for the same Project in one calendar year.

- Read the descriptions below to determine which programs fund the type of project you are planning.
- Look at the grant application and instructions on-line at the websites listed below.
- Contact representatives from the agencies listed below if you have questions concerning their respective grant programs.
- Be prepared to demonstrate strong community support for projects on public buildings through fundraising campaigns and grass roots initiatives.
- Good luck!
