STATE OF VERMONT
DEPARTMENT OF BUILDINGS AND GENERAL SERVICES

The State of Vermont has adopted the nationally recognized ANSI/BOMA Standards as its basis for space measurement in our owned and leased space. This will help the State compare its space usage with that of other building owners. Please note the current Department space measurements were previously calculated using a similar method, but not identical to the ANSI/ BOMA standard. We are continuing to revise the State's Space information so that it will be consistent with the new standard.

All calculations & estimates use the following definitions and criteria:

DEFINITIONS

GROSS BUILDING AREA:

The total enclosed area of the building, including outside walls.

COMMON AREA:

Areas such as washrooms, janitorial closets, electrical rooms, mechanical rooms, telephone rooms, lobbies, shared conference rooms, and public corridors. The square footage of the common area has been divided proportionally with those departments sharing the building.

USEABLE AREA:

The actual square footage occupied by a department including interior corridors but excluding the major vertical penetrations (Stairwells, elevator shafts, etc.) and the common areas.

RENTABLE AREA:

The Useable Area plus its associated share of common space.

We have separated the utility (storage) spaces from the office space. The utility spaces will be charged at a lower rate than the office space. Heated Utility space is charged at 70% of office space and Cold Utility is charged at 25% of office space. Storage areas within office space are considered to be office space.

HEATED UTILITY:

Buildings or spaces that have heat and utilities (Basement storage, warehouse, etc.)

COLD UTILITY:

Buildings or spaces that have no heat or utilities (garages, woodsheds, etc.)

OFFICE AREA:

The Useable Area excluding utility (storage) spaces.

BILLABLE AREA:

The Total Area of Office Space including Utility Space plus its associated share of Common Space.

- Additional information available in the ANSI/BOMA Z65.1-2010 Standards
