PHILIP B. SCOTT  
GOVERNOR

State of Vermont  
OFFICE OF THE GOVERNOR

January 26, 2021

Vermont Legislature  
115 State Street  
Montpelier, VT 05633-5301

Dear Legislators:

I am pleased to present my third biennial Capital Budget consistent with the Capital Debt Affordability Advisory Committee's recommendation of \$123,180,000, an amount that remains unchanged from last biennium. Our collective challenge is to prioritize how we use these borrowed dollars to keep Vermont affordable by maintaining the infrastructure we have, especially our natural resources, trail systems and parks, to keep our commitment to the most vulnerable, and to rebuild and strengthen our economy in all 14 counties.

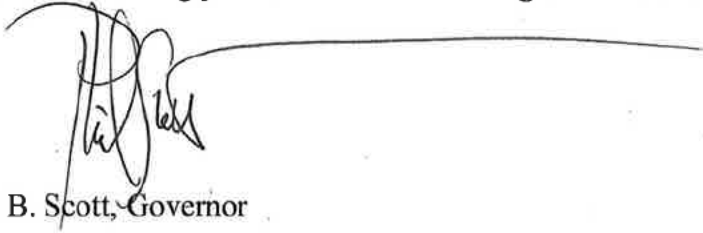

This capital budget includes investments that are part of my larger multi-million-dollar package to boost our recreation economy. It includes investments that revitalize and rehabilitate our spectacular state park system and enhance fishing and boating access and wildlife management areas. The pandemic has graphically illustrated the importance of our parks, trails and recreational areas that have provided Vermonters an outlet during these challenging times. With more funding directed to the upkeep and maintenance of our parks, we will be positioned to enhance their quality for the visitors of today and tomorrow. With additional investments in construction of ADA accessible cabins, we will continue to generate more interest, and additional revenue, by providing an experience that has proven to be popular with park visitors and an attraction to those who seek amenities beyond traditional lean-to's and tents.

The pandemic has also put a spotlight on the needs of our downtowns and village centers which are the heart of our communities. The Building Communities Grants Programs funded through the capital bill have supported innovative projects that rehabilitate and create new opportunities for jobs, recreation and culture in Vermont's historic downtowns, villages and rural communities, which make them more attractive to the new Vermonters we desperately need. With a boost in the amount of capital we invest in these grants to \$4.2 million, we can improve our ability to meet the requests for these unique grants that bring communities together and bolster our local and regional economies.

This budget also continues our commitment to investments that protect the most vulnerable with continued investments in state infrastructure, such as the replacement of the existing therapeutic residential facility and addressing life safety and security needs in our correctional facilities.

Over the years, we have worked to eliminate the funding of information technology (IT) projects with borrowed dollars and this budget achieves that goal. Additionally, a proposal to create a special fund for major IT projects will be part of my general fund budget proposal. Because of our work to consolidate IT and create the Agency of Digital Services, this fund can operate much like the capital bill by consolidating all our IT needs into one budget. That will bring the same level of transparency, prioritization, and flexibility to these funding decisions in the way we have achieved with capital projects. Seed money of nearly \$53 million to support a dozen projects will come from the one-time money generated by the extraordinary recent fiscal year 2021 revenue upgrade. Over the next biennium, my Administration will work with the Legislature to identify a sustainable funding mechanism for the future. As we learned during the pandemic, maintaining high-functioning, modern and secure technology to support state operations requires a more focused approach.

Despite the challenges we have faced individually and as a state during this pandemic, we must continue to grow the economy, make Vermont more affordable and protect the most vulnerable and I believe this budget accomplishes all three of these initiatives. I look forward to working with you and hearing your ideas as we work together this biennium.

A handwritten signature in black ink, appearing to read 'Philip B. Scott', is written over a long horizontal line that spans across the page.

Philip B. Scott, Governor

ADMINISTRATION

INTRODUCTION

## **AGENCY OF ADMINISTRATION INTRODUCTION**

### **Debt Affordability Committee Report – Background**

The Capital Debt Affordability Advisory Committee (CDAAC) was established in 1990. Its primary mission is to make an annual advisory recommendation to the Governor and to the Legislature for the maximum amount of new long-term net-tax-supported debt that prudently may be authorized for the next two fiscal years. The eight-member Committee is comprised of the Secretary of Administration, the State Treasurer (Chair), the Auditor of Accounts (non-voting member), an individual selected by the Vermont Municipal Bond Bank, two individuals appointed by the Governor, the Legislative Economist or other designee of the Joint Fiscal Office, and one individual appointed by the State Treasurer.

In forming its recommendations, the Committee has historically considered key affordability standards including State debt per capita, State debt as a percentage of personal income, and projected annual debt service as a percent of projected State revenues. In 2008, the Legislature expanded the Committee's charge to include consideration of the impact of capital spending upon the economic conditions of the State and the cost-benefit analysis of various levels of debt, types of debt and maturity schedules.

The CDAAC benchmarks the State of Vermont against other triple-A rated states in formulating its recommendation for the maximum authorization amount of net-tax-supported debt to be issued each fiscal year. The Committee is guided annually by Vermont's ability to meet the triple-A rated state, five-year averages for the mean and median of per capita debt load, and debt as a percentage of personal income, based on this capacity while maintaining the highest possible credit-rating and remaining within the guidelines adopted by the Committee.

Based on data from Moody's:

- Vermont's 5-year average debt per capita figure is \$1,052, which is above both the 5-year mean (\$928) and 5-year median (\$647) for triple-A rated states.
- Vermont's 2019 net tax supported debt as a percentage of personal income is 2.1%, which is above both the 5-year mean (1.9%) and the 5-year median (1.5%) for triple-A rated states. With respect to the amount of debt service paid out of operating revenues (general fund and transportation, and not education fund), the CDAAC currently follows a 6.0% guideline. At present, the State's debt service liability represents approximately 4.31% of operating funds, safely within CDAAC guidelines.

#### **FY22-23 Recommended Debt Authorization**

The Committee recommends a maximum 2-year net-tax-supported debt authorization not to exceed \$123,180,000 for the fiscal years 2022 and 2023. This recommendation represents no increase from the \$123,180,000 2-year recommendation for fiscal years 2020 and 2021.

#### **Rationale for Recommendations**

The Committee provided the following rationale for its \$123,180,000 2-year recommendation:

- Authorization of this level of debt complies with the State's triple-A debt guidelines.

- Authorization of this level of debt is consistent with the current expectations of the rating agencies, and we believe this authorization demonstrates that the State continues to manage its debt issuance program in a prudent and restrained manner.

### **Vermont's Credit Rating**

Moody's Investors Service, Standard & Poor's, and Fitch Ratings are the primary organizations that assign credit ratings to state and municipal debt. These credit ratings inform investors as to the relative risk of the issuing state or municipality and are based on the issuer's financial health and economic outlook. Credit ratings rank state issuers from the highest, a triple-A rating to the lowest investment grade rating, a triple-B rating. States and municipalities with lower credit ratings must pay higher interest rates when issuing bonds.

Vermont's general obligation debt is currently rated double-A plus (second highest) by Fitch Ratings, double-A (second highest) by Moody's Investors Service and double-A plus (second highest) by Standard & Poor's. These ratings make Vermont one of the highest-rated states in the Country. In 2019, Standard & Poor's revised its outlook to negative from stable on the State of Vermont's general obligation (GO) and moral obligation debt outstanding. Continued prudence with regards to borrowing practices could help Vermont reverse this outlook and achieve triple-A ratings from all three rating agencies.

Rating agencies look at a variety of data when considering a bond rating. The Official Statement, or bond prospectus, is a critical document as are the State's most recent financial statements. Telephonic and in-person meetings with the ratings agencies are also held, at which time the agencies are given the opportunity to ask specific questions about the documentation provided in connection with a proposed debt issuance, as well as make inquiries and informal judgments about the State's economy, its overall financial condition, and overall management of the State's fiscal affairs.

It is critically important for Vermont to continue to at least maintain and, if possible, improve upon its current bond ratings. The State's practices of maintaining debt ratios in accordance with CDAAC guidelines and of issuing debt with level annual principal installments represent debt management characteristics that have allowed Vermont's highly rated bonds to be issued at increasing annual amounts to cost-effectively fund infrastructure and other capital improvements; these sound practices should be continued. Not only does Vermont's credit rating impact what it pays on its general obligation debt, its rating also affects municipal bond ratings and the quasi-public bodies that also issue bonds, such as the Municipal Bond Bank and the Vermont Housing Finance Agency. The State's bond rating is an important measure to be zealously defended and guarded against to help ensure the lowest cost financing for Vermonters.

**FROM:** Beth Pearce, State Treasurer 

**DATE:** October 30, 2020

**RE:** Capital Debt Affordability Advisory Committee Report for 2020

---

Pursuant to 32 V.S.A. §1001, I am pleased to deliver on behalf of the Capital Debt Affordability Advisory Committee (“Committee” or “CDAAC”) its “Recommended Annual Net Tax-Supported Debt Authorization” Report for 2020 (“Report”). The Committee’s two-year debt recommendation for fiscal years 2022 and 2023 is \$123,180,000, reflecting no change from the previous biennium’s recommendation of \$123,180,000.

As noted in the Report, the more limited debt issuance among the triple-A rated states over the past several years, combined with the State issuing more debt than it has been retiring, has weakened the State’s relative position compared to its peers. While the Committee has recommended reductions in authorizations over the past three biennia, resulting in a 23% reduction in recommended issuance, the Committee is also cognizant of the unprecedented economic repercussions from the COVID-19 pandemic. The Committee therefore decided not to change its biennial recommendation from the current level.

In 2019, the Committee recommended that CDAAC establish a working group to evaluate the best use of bond premium and the benefits of the State increasing its Pay-go funds, and report recommendations to the full CDAAC. While much of this work was interrupted by COVID, we expect to complete these tasks over the next year, including incorporating a review of the capital budget and 10-year capital program to provide suggestions regarding the funding of deferred maintenance consistent with CDAAC’s past discussions and rating agency guidance. In addition, the working group will undertake a review of metrics used to develop future recommendations for debt affordability and the resulting debt issuance.

I would like to thank the Committee for its work this year. Please contact me with any questions.

BUILDINGS AND  
GENERAL SERVICES

**SECTION 1**

**AGENCY OF ADMINISTRATION**

**SEC. 1 APPROPRIATIONS: DEPARTMENT OF BUILDINGS & GENERAL SERVICES**

The sum of \$44,188,916 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Department of Buildings and General Services (BGS). The Commissioner is authorized to direct funds appropriated in this Section to the projects contained in this Section; the individual allocations in this Section are estimates only:

The following sums are requested for Fiscal Years 2022 and 2023:

1. BGS ~ Engineering/Architectural Costs..... \$7,371,916

The sum of \$7,371,916 is requested to support the general operation of the BGS Engineering and Construction Division for the next two (2) years. In FY 2010, the legislature authorized the BGS Design and Construction Division costs to be funded with Capital money. The Design and Construction Division provides the planning, engineering, architectural, and construction oversight services for a significant portion of the Capital Bill. This Division delivers this service for all BGS Capital requests as well as several other government entities that receive Capital Appropriations. Without this program, there will be no existing mechanism in place to accomplish the goals set forth in the Capital Bill.

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals
					FY '24	FY '25	FY '26- FY '31	
Planning & Design, Outside Consultants								
Site Acquisition								
Construction								
Fit-Up								
Total Appropriation for Fiscal Year(s)	3,584	3,735	3,624	3,747	4,410	4,564	30,941	54,605

2. Statewide Major Maintenance .....\$14,445,000

The Department of Buildings and General Services (BGS) is responsible for the maintenance of approximately 236 buildings statewide, a public investment with a replacement value of about \$899,171,023. Many of these structures are more than thirty-five (35) years old and some are well over sixty-five (65) years old. The maintenance budget for the management of this infrastructure should be between 2% and 4% of the value of the infrastructure (3% is about \$ \$26,975,131). The operating budget for maintenance is about \$ \$11,826,206 for fiscal year 2022, which covers salaries and routine maintenance. The requests for \$7,098,000 for FY 2022 and \$7,347,000 for FY 2023 are targeted for major replacements or repairs of infrastructure that cannot be accomplished through operating revenues. (See graphical representation on next page.) One of the reasons for our relatively high monetary request for the foreseeable future is that we are completing the Facility Condition Assessments, which have brought to light many necessary repairs, replacements and upgrades needed at our correctional and other facilities.

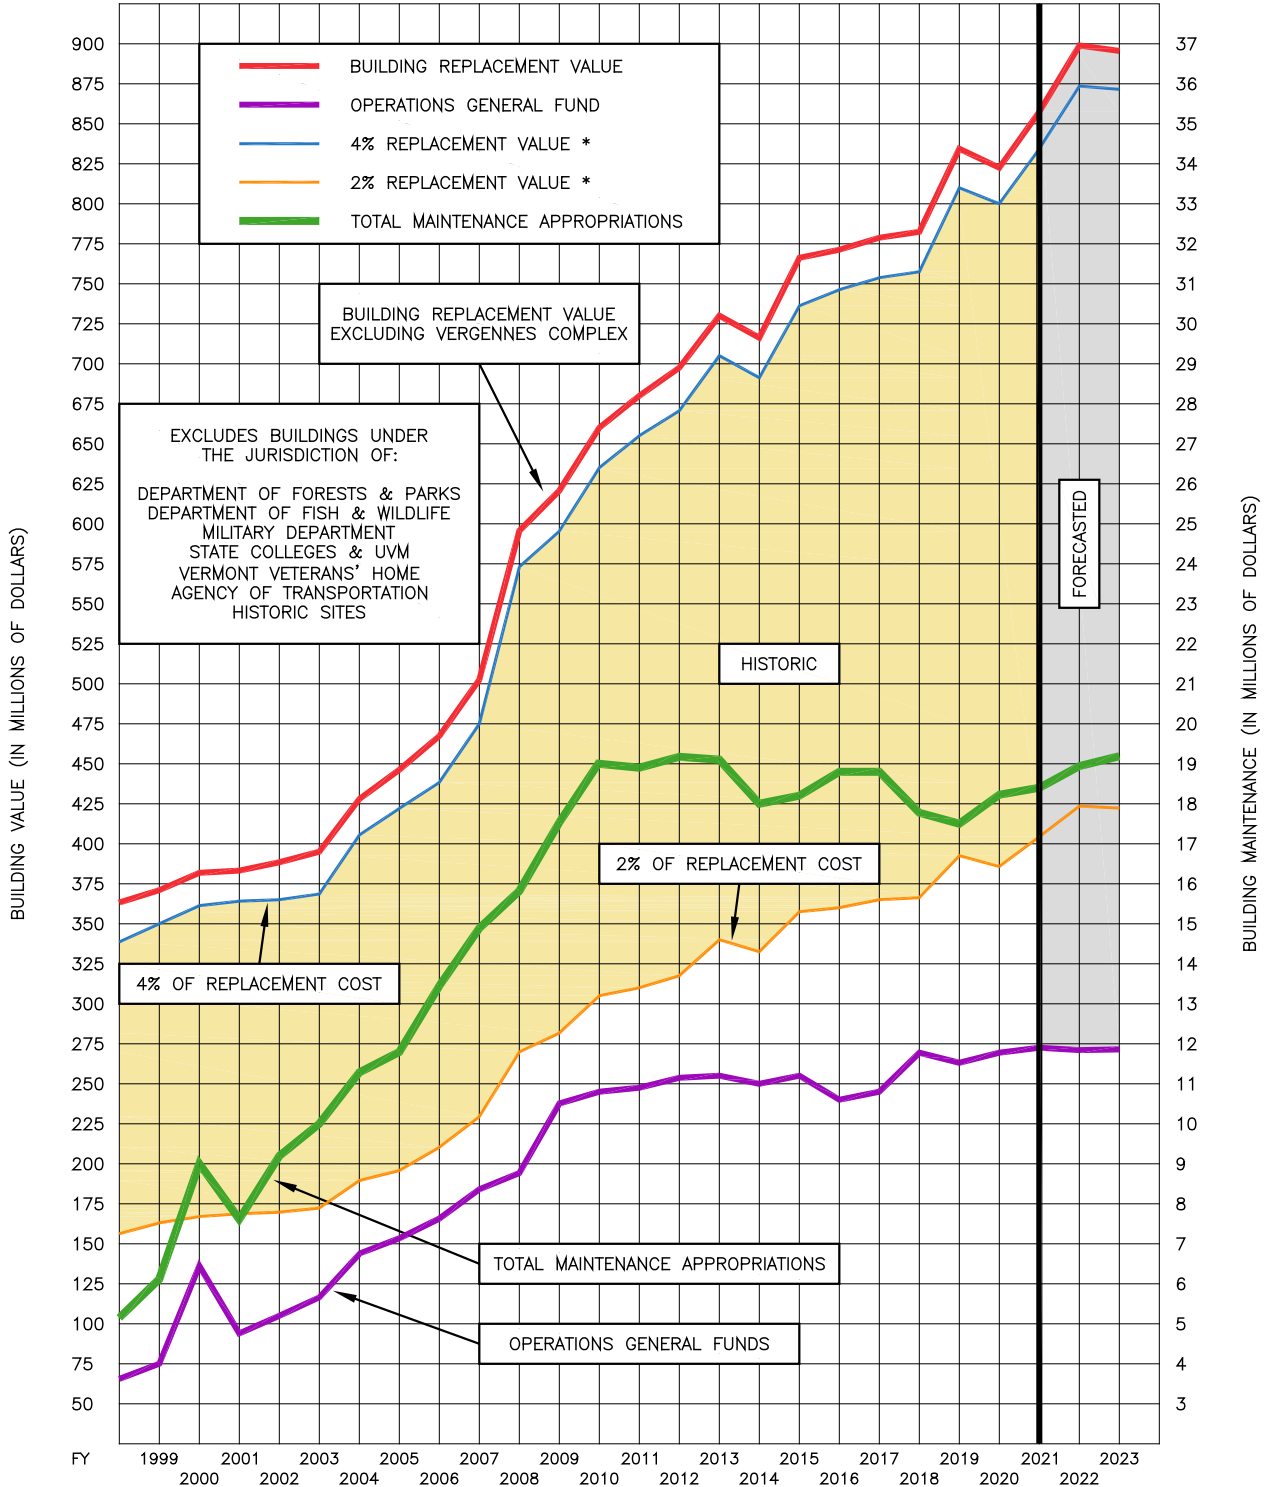

Examples of proposed projects include:

- |                                |   |
|--------------------------------|---|
| Floor Coverings                | Building Masonry Cleaning & Repair        |
| Elevator Retrofits             | Window Replacements                       |
| Re-Paving Projects             | HVAC Duct Cleaning & Re-Balancing         |
| Heating System Replacements    | Ventilation System Repairs & Improvements |
| Fire Alarm System Replacements | Building & Utility Infrastructure Repairs |
| Roof Repairs & Replacements    | Asbestos and Lead Abatement               |

REVISED: JANUARY 2021

3. Statewide Physical Security Enhancements..... \$500,000

Standard technological security measures should be implemented in all state facilities as feasible and vary based on numerous factors such as threat level, size and location of the facility. These measures include the installation of panic and intrusion alarms, card access, lock down buttons, intercoms, door release buttons and cameras. Other items such as reception windows, client service areas and secured parking may also be addressed at sites where applicable. The funds requested in this fiscal year would support the installation of security technology in approximately twenty state facilities. By completing these installations, all facilities with identified threat levels 1, 2 and 2+ will have appropriate security infrastructure.

4. Statewide ~ Reuse, Planning, Realignment, and Contingency  
Annual Appropriation ..... \$1,000,000

The sum of \$500,000 is requested in FY 2022 and \$500,000 in FY 2023 for contingency, planning, and reuse. The combination of the three categories provides greater flexibility to the department to respond to changing market trends, place a greater emphasis on the planning phase, and address the planned and unplanned needs of our customers.

These funds will be used to respond to the changing programmatic needs of the agencies and departments we serve through space moves and space modifications. As agencies and departments look for opportunities to become more efficient, enhance communication and collaboration, and integrate new programs, they have associated space modification requests.

The Planning Phase, the most critical phase of project development. During this phase, our planning team develops scopes of work, a cost estimate, and project delivery schedule. This will help reduce or eliminate scope creep, result in greater accuracy in the development of project estimates and spending profiles, provide an accurate project delivery timeframe, and allow BGS to appropriately allocate resources in the design and construction phases of project delivery.

This appropriation will be used to cover shortfalls due to changing market conditions that affect bids, estimating challenges, and unforeseen conditions that impact project costs. These funds provide badly needed flexibility to support several hundred annual BGS projects. The contingency funds are essential to the department to address shortfalls created during the bidding process when bids exceed appropriations or available funding. Project estimating is not an exact science and is most often affected by market conditions. Contingency funds are also used to address shortfalls that occur as a result of unforeseen conditions and project funding is not available to cover those additional costs.

These funds provide the Commissioner with the ability to keep projects moving forward and with the necessary flexibility to use these funds where they are most needed. They are needed each year to support BGS in responding to the Legislature and Executive Direction as outlined in the Capital Bill.

5. Burlington ~ 108 Cherry Street – Parking Garage Repairs..... \$3,093,000

In November of 2019, the design was started on the repairs to the precast filigree deck slab and the 3½ inch cast in place topcoat, due to high chloride contaminations (road salt). The design details the removal of the contaminated 3½ inch concrete topcoat, repair and/or replacement of the full depth concrete slab, and repair and/or replacement of the concrete beams. The drainage, electrical, ventilation, and fire suppression systems will also need to be replaced due to severe deterioration and to meet current code requirements. The parking garage will be closed during construction and temporary off-site parking is required.

The prior appropriations of \$12,931,094 have been used to complete the design and allows for the construction to start in late winter of 2021. The sum of \$3,093,000 in FY '22 is requested to complete the repairs to the parking structure.

6. Springfield ~ Southern State Correctional Facility – Door Control System Replacement..... \$2,800,000

Southern State Correctional Facility (SSCF) is the next facility most critically in need of a door control system replacement. The system is over 15 years old and is a proprietary system requiring licensing by the contractor to be able to service the system and provide recommended upgrades. This system has had numerous failures since the facility opened and is difficult to service due to the limited number of contractors who are able to work on the system. The camera server at SSCF is end-of-life and has been temporarily repaired to allow camera function until the new system is installed. This facility will be upgraded to the system chosen for Northern State Correctional Facility (NSCF) in Newport, currently under construction. The existing perimeter intrusion detection system (PIDS) is also end-of-life. A new PIDS will be installed at SSCF that will integrate with the new touchscreen-based control system.

Design of the door control system replacement started in October of 2020. The scope of work also requires fit-up of the gymnasium to house inmates while door control work is being completed in living units. The gymnasium fit-up is a permanent renovation that will allow the facility to house inmates for future events.

Design is expected to be complete in May of 2021, with construction expected to begin as early as July and lasting about 10 months. This request is for funds to complete the construction for the door control system at SSCF, including DOC operational costs resulting from construction and Clerk of the Works expenses.

7. Rutland ~ Asa Bloomer Building - Major Renovation..... \$1,975,000

The Asa Bloomer Building came under state ownership on January 1, 2018 after being a lease to own property for 20 years. The building needs significant upgrades and improvements to bring it up to state standards for health and safety of state employees and the public who use this building for state services. This request continues with updating the end-of-life systems and vital repairs to sustain the building, specifically the replacement of the skylight and roof systems, as well as the investigation and repairs required to address flooding and odors from the basement sewer and stormwater systems.

8. Montpelier ~ 115 State Street (State House) HVAC Renovations..... \$2,535,000

The State House has undergone numerous renovations since being constructed in 1857. The air handling units (AHU) serving the House AHU-1 and 2, the Senate chamber AHU-3 and the Annex AHU-6, which contains the House committee rooms, were all installed during the 1970 renovation. These units which have an expected useful life of 20 years, are now 38 years past due for replacement. The two units AHU-4 and AHU-5 which serve the offices and committee rooms in the original building including the Senate Committee rooms, the Lieutenant Governor’s office, the Governor’s Ceremonial office and the Cedar Creek room were installed in 1995 and are approaching the expected end of life.

During the summer of 2018, with the record high temperatures and humidity, mold formed in the 20’s and 40’s which necessitated a very expensive clean-up effort to prepare the spaces for the 2019 legislative session. Part of the contributing reason is that we can cool the air, but do not have any provisions for dehumidification. The most common way to dehumidify the air is to sub-cool the air to wring the moisture out, then heat it back up to provide proper space temperature regulation. In a typical office building the internal heat gains in the building (lights, people, computers, printers, copiers, etc.) provide the necessary reheat to maintain a comfortable space temperature, while adequately removing the moisture at the cooling coil in the AHU. But the State House is virtually vacant during the hottest, most humid times of the year, so it lacks the necessary internal heat gains to properly control the humidity in the building, and the central heat plant is shut down for the summer, so some other method of controlling humidity is needed.

Occupancy of the building has increased significantly since most of these systems were installed. As such, they no longer provide the code minimum amount of ventilation air to the occupants. In light of the COVID pandemic of 2020, not only do we need to provide the code minimum amount of ventilation air for the occupants, but we need the ability to increase that ventilation component during times of a health crisis and move their air through more effective filtration during these events.

9. Newport ~ Courthouse Replacement..... \$1,032,000

The existing Vermont Superior Court of Orleans County currently functions in two adjacent buildings, the Orleans County Courthouse (county-owned) and the Orleans County District Court and State Office Building (state-owned). The Judicial Branch, Department of Corrections - Probation and Parole, and State’s Attorney occupy the state-owned building, which suffers from significant programmatic inadequacies and functional obsolescence.

Continued use of the existing courthouse building in Newport will necessitate extensive investment to address long-term deficiencies in that building, including elevators, security infrastructure, and ADA access. Even with these improvements, the building would still not meet the needs of the Judiciary or Probation and Parole programs.

This funding request is to complete the programming and design for a new courthouse at a new location in Newport.

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals

10. Statewide ~ Correctional Facilities Door Controls ..... \$671,000

All State correctional facilities are in need of door control system replacement and have been prioritized based on severity. This request covers the remaining facilities that have not yet been upgraded (MVRCF, CRCF, NWSCF, CCWC, NERCF) and includes replacement of the relay-based door control systems with a PLC-based system utilizing touch-screen controls, integration of the existing intercom and camera systems into the touchscreen platform, and replacement of the existing perimeter intrusion detection systems on the secure perimeter fences with a system that will be connected to the touchscreens. This will upgrade all of the state’s facilities to the current industry-standard technology, with a consistent platform across all facilities.

Construction will be extremely disruptive to the operation of the facilities and will require the relocation of inmates when work is being completed in living areas. This request is for funds to design and construct the new system in the remaining facilities and includes off-site housing costs for inmates when work is taking place in the living units, DOC operational costs to devote two officers to construction duty during the project, and full-time Clerk of the Works expenses.

With the delay in the SSCF project due to COVID-19, the FY '23 funds requested will be used to complete the designs for NERCF, CCWC, and MVRCF concurrently. The balance will be used to bid the project for construction in anticipation of funding in FY '24 for the NERCF and CCWC. FY '25 is for construction at MVRCF, as well as the design of CRCF and NWSCF if these facilities are not scheduled for replacement.

11. Montpelier ~ State House (115 State Street) Restored Carpets, Seating, Draperies, Interior Finishes ..... \$104,000

The Vermont State House is one of the most heavily visited museums in the state with over 150,000 Vermonters, schoolchildren and tourists coming through its doors per year. With a newly resplendent golden dome, surmounted by a new statue of *Agriculture*, it will undoubtedly attract even more visitors in coming years. All that traffic, particularly during the legislative session in winter and spring, takes a toll on the most ephemeral elements of the late 20<sup>th</sup> century interior restoration of the State House, and this appropriation will provide the next step toward ensuring that carpets, draperies, upholstery, and other interior finishes keep pace, as time goes on, with their necessary ongoing replacement and repair.

Today’s State House was carefully restored to its mid-19<sup>th</sup> century appearance from the early 1980’s through 2000, with painstaking study of old photographs and inventories informing the replication of carpets, draperies and upholstery with many of the same materials from 140 years earlier. Now many of these materials have degraded due to heavy use, and if we are to keep the authentic interiors of the State House intact, a cycle of replacement and ongoing repair must continue.

We request funding to continue work to replace existing worn interior finishes; prioritizing replacing carpets and drapery in the Governor’s Ceremonial Office, the Vestibule near the Governor’s Ceremonial Office, the Hall of Flags, the Cedar Creek Room, the Senate Secretary’s Office, and the House and Senate chambers.

12. Montpelier ~ 120 State Street Steam Lines and Interior Renovations ..... \$525,000

120 State Street is a modernist white marble clad structure with modest Art Deco architectural features. The building is listed on the National Register for Historic Places. The building has recently undergone a retrofit of the rear entry, to create a new accessible entrance and freight elevator, replacement of the stair towers, as well as flood proofing. The next phase of funding requested for this building is necessary to address the existing steam and condensate lines embedded in the floor slabs and exterior walls.

All existing steam and condensate lines are beyond their design life and are leaking in various locations throughout the facility. Although 1-2 floors will require relocation at any given time throughout construction, the plan is to reduce impact during construction by abandoning the existing steam and condensate lines and installing a new HVAC system to serve the entire building. This plan also addresses the existing HVAC system shortfalls, which does not provide fresh air or cooling throughout the entire facility. By rerouting the HVAC system to new duct work in the ceiling, we'll also have the opportunity to address the aging electrical wiring and provide an energy retrofit (lighting, etc.).

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals

13. Brattleboro ~ Courthouse Re-roof ..... \$100,000

The Windham Superior Courthouse has experienced many roof leaks for the past few years. Many repairs have been made to band-aid the problem. The roof is out of warranty and at the end of life. Continued leaks and emergency repairs impact maintenance activities and can damage equipment, interior fittings, furnishings, as well as present mold issues.

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals

14. Burlington ~ 32 Cherry Parking Garage Renovations..... \$865,000

In April of 2020, a Condition Appraisal Report detailing the conditions of the parking structure at the 32 Cherry Street Parking Garage was completed. The report recommends repairs to the concrete structure due to water and salt infiltration. This infiltration is causing severe deterioration to the driving surfaces causing spalling, ponding of water, and creating tripping hazards throughout the garage. The waterproofing membrane over the upper garage is also deteriorating, allowing water to infiltrate into the structure. This infiltration is creating cracking and spalling of the concrete roof deck, beams, and columns. Overhead spalling can fall and damage vehicles or employees. The drainage and fire suppression systems also need to be replaced due to severe deterioration.

15. Rutland ~ Multimodal Garage Renovation..... \$609,000

In April of 2020, a Condition Appraisal Report detailing the conditions of the precast concrete parking structure at the Rutland Multimodal Transit Center was completed. The report recommends repairs to the concrete structures due to water and salt infiltration. Protecting the concrete is important to maintaining the integrity and extending the service life of the parking structure. When the surface deteriorates, water, salt, and other elements can infiltrate the structure and result in corrosion of the reinforcing steel and connections between structural elements. The project would include repairs to the precast concrete structural beams and columns, replacement of joint sealants, new ground floor lighting, and repairs to the electrical systems and elevator equipment.

16. Statewide ~ Stormwater Planning ..... \$609,000

On December 1, 2020, General Permit 3-9050 went into effect. General Permit 3-9050 is a permit for stormwater runoff from impervious surfaces from three or more acres. It is an important component of the Vermont Clean Water Act of 2015 (Act 64) and is designed to assist in the implementation of clean-up efforts in Lake Champlain, Lake Memphremagog, and stormwater-impaired waters, while also protecting high quality surface waters statewide. The Department of Environmental Conservation has identified eight sites that will require upgraded stormwater treatment systems to meet the current standards. Existing permits for three sites will expire this year, requiring a plan to be completed in 18 months. The funding is for the design and construction of stormwater systems for eight sites.

17. Waterbury ~ WSOC Historic Core Roof Replacements..... \$4,192,000

The project is for planned replacement of the remaining original slate roofs and copper appurtenances at the Waterbury State Office Complex Agency of Human Services Buildings B, C, D, F, and G, the Hanks Building, and the Department of Public Safety (DPS) Building. Leak repairs in 2020 found that the slates at on most of the buildings can no longer be repaired and need full replacement.

18. Montpelier ~ 111 State Street Renovation of Stack Area, HVAC Upgrades, and Elevator ..... \$158,000

111 State Street is significantly underused despite its central location. This proposed project will improve use of this essential Complex building by increasing available office space, reduce leased space, improve building systems, and improve accessibility. By optimizing the vacated State Library’s stack area, this project will add up to 13,500 SF of general office space.

This project will create two floors of new office space in the stack area which will allow for the consolidation of Judiciary from leased space. The additional space will require a larger HVAC system, which provides the opportunity to replace the aging existing HVAC system with new equipment that is more efficient and provides fresh air and cooling throughout the facility. Improving accessibility will also be addressed by installing a new elevator shaft. A new elevator is seriously needed as the existing original elevator is outdated, does not meet elevator or ADA code, and many parts are no longer available.

19. Montpelier ~ State House Exhibition/Interpretation  
Design and Construction ..... \$83,000

In 2020, the legislature passed a provision calling for the creation of a new Interpretive Plan for the State House—which later in 2021 will outline themes and stories that the building and its collections should call out. We expect to develop and implement a number of new exhibits, and to develop more audio tour and digital delivery systems for audience appreciation. Those projects are designed for the new approaches that all museums are developing for 21<sup>st</sup> century, post-pandemic visitor appreciation.

20. White River Junction ~ Courthouse Renovation ..... \$1,521,000

The building was constructed in 1987 as a District Courthouse. Since that time very little has been changed in the building; however, the needs of the Judiciary have changed in that time, and security needs have changed drastically since 9/11. The HVAC control system is pneumatically based, it requires cleaning and re-calibration every 6 months, and contractors who have the equipment and knowledge on these systems are becoming harder to find with every passing year. The mechanical systems have reached their useful life, replacement parts are becoming harder to obtain and the efficiency of the equipment is measurably less than modern equipment. Replacement of antiquated mechanical systems will require parts of the building to be unoccupied for periods of time. This is an ideal time to make changes in the floor plan to accommodate the needs of the Judiciary and improve the general security of the court and its personnel. Several attempts to correct the water intrusion from the failed flashing of the brick façade has been tried and for the most part corrected; however, water is passing through to the interior space. Replacement of the brick façade and wall insulation may be required to prevent rot and mold growth.

Total Request for Section 1 FY 2022 and FY 2023	\$44,188,916

**SECTION 2**

**AGENCY OF HUMAN SERVICES**

**SEC. 2 APPROPRIATIONS: AGENCY OF HUMAN SERVICES**

The sum of \$13,550,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Department of Buildings and General Services on behalf of the Agency of Human Services. The Commissioner is authorized to direct funds appropriated in this Section to the projects contained in this Section; the individual allocations in this Section are estimates only.

1. Middlesex ~ Therapeutic Community Residence - Replacement .....\$11,600,000  
 The Middlesex Therapeutic Community Residence (MTCR) was constructed as a temporary 7-bed facility in response to Tropical Storm Irene. The current facility is in dire need of replacement and is well beyond its useful life. The proposed replacement facility will be a 16-bed, state-owned facility to be constructed at the old Woodside Facility site in Essex. FY 2022 funds are requested to complete the construction of a new Physically Secure Recovery Residence.

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals
					FY '24	FY '25	FY '26- FY '31	
Planning & Design, Outside Consultants	500	200						700
Site Acquisition	50							50
Construction	2,500	1,300	11,600					15,400
Fit-Up								
Total Appropriation for Fiscal Year(s)	3,050	1,500	11,600					16,150

2. Women's Correctional Facility / AHS Multipurpose Campus Facility

The Agency of Human Services (AHS) and the Department of Buildings and General Services are working with an outside consultant to develop a long-term recommendation for replacement of our aging and outdated correctional facilities. A final report is expected to be completed during the legislative session.

After reviewing the deferred maintenance costs, the recommendations from the ongoing feasibility study, the conditions of the present women's facility and the desire to address special populations, and provide vocational programming, it is the recommendation of AHS that Vermont work towards the creation of a new women's correctional facility and transitional programming while being prepared to explore campus style options if appropriate.

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals

Total Appropriation for Fiscal Year(s)			500	1,000				1,500

3. Statewide ~ Correctional Facilities - Life Safety and Security Needs and Enhancement ..... \$450,000

FY 2022 and FY 2023 funds are requested to continue implementation of digital camera equipment and recording systems in all correctional facilities for enhanced security and inmate monitoring and to include additional cameras for compliance with the Prison Rape Elimination Act (PREA), 28 C.F.R. § 115.18. Continued improvements to the security and sanitary living conditions at correctional facilities are needed to ensure continued and improved safety for the public, staff, and inmates. Investments will include suicide abatement, fencing, and perimeter intrusion detection systems.

## **SECTION 3**

### **JUDICIARY**

#### **SEC. 3 APPROPRIATIONS: JUDICIARY**

No appropriation recommended in this section.

COMMERCE AND  
COMMUNITY  
DEVELOPMENT

**SECTION 4**

**AGENCY OF COMMERCE AND COMMUNITY DEVELOPMENT**

**SEC. 4 APPROPRIATIONS: AGENCY OF COMMERCE & COMMUNITY DEVELOPMENT**

The sum of \$863,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Agency of Commerce and Community Development. The Secretary is authorized to direct funds appropriated in this Section to the projects contained in this Section; the individual allocations in this Section are estimates only:

1. Historic Sites Maintenance ..... \$700,000

The sum of \$350,000 is requested for each of FY 2022 and FY 2023 for Historic Sites Maintenance. Funds are requested to address maintenance assuring that the eighty-one (81) buildings, structures, and sites are properly maintained at the State-Owned Historic Sites. Maintenance and repairs, including routine, preventive, emergency, deferred, ongoing, and major maintenance activities, will protect the infrastructure and prevent more costly capital work in the future. Work such as rehabilitation and repairs to foundations, roofs, structural deficiencies, furnace and HVAC replacements, ADA compliance and public/staff safety, painting, outdoor site work, upgrades to fire and security systems, and water and septic systems are undertaken with these funds.

2. Underwater Preserves ..... \$50,000

The sum of \$25,000 is requested for each of FY 2022 and FY 2023 for Underwater Preserves. All underwater historic sites in the Vermont waters of Lake Champlain belong in public trust and under the authority of the Division for Historic Preservation (VDHP). It is VDHP’s responsibility to protect, manage, promote, and interpret this public heritage and keep it safe from and for the diving and boating public. The Capital appropriation provides funds for the marking of the underwater preserves by mooring buoys and underwater signs; emergency response equipment for the boat provided by the Vermont State Police for Underwater Preserve monitoring; for the identification, documentation, and promotion of additional sites that could be opened to the public as preserves; conservation of recovered artifacts; and above water interpretive displays in partnership with the Lake Champlain Maritime Museum.

3. Roadside Historic Markers.....\$50,000

The sum of \$25,000 is requested for each of FY 2022 and FY 2023 for Roadside Historic Markers. These funds are requested for the continued erection and maintenance of Roadside Historic Site Markers. This program, which has been active since 1947, places new markers and replaces damaged or outdated markers across the State (and one in the Commonwealth of Virginia) to identify historically significant places, events or people. To date, 282 markers have been placed.

4. Unmarked Burial Fund..... \$63,000

The sum of \$63,000 is requested to protect, preserve, move or reinter unmarked burial sites and human remains; to perform archaeological investigation assessments and monitoring, including radar scanning and any other nonintrusive technology or technique designed to establish the presence of human remains; to provide mediation and other appropriate dispute resolution services; and to acquire property or development rights.

Total Request for FY 2022	\$463,000
Total Request for FY 2023	\$400,000
<hr/>	
Total Request for Section 4 FY 2022 and FY 2023	\$863,000

BUILDING  
COMMUNITIES  
GRANTS

**SECTION 5**

**BUILDING COMMUNITIES GRANTS**

**SEC. 5 APPROPRIATIONS: BUILDING COMMUNITIES GRANTS**

The sum of \$1,800,000 is requested to be appropriated to the Agency of Commerce and Community Development for:

- 1. Historic Preservation Grants ..... \$600,000

This program provides 50/50 matching grants to non-profit organizations and municipalities for the restoration of historic structures. Historic community buildings such as town halls, libraries, churches, museums, and other structures like covered bridges are assisted with foundation, roofing, structural, steeple and other exterior work. Many projects provide new uses for underutilized or vacant buildings. This program continues to be of great interest to the public with 3-4 times as many applications received as can be funded, with an average grant amount of \$10,000. This program is a linchpin of the State's continuing partnership with the Preservation Trust of Vermont and can leverage substantial non-state funds. Overall, the matching share exceeds the amount awarded. Since FY 1986 the historic preservation grants have transformed community buildings all over the State and restored community use through this program.

- 2. Historic Barns and Agricultural Grants ..... \$600,000

This program provides 50/50 matching grants for the restoration of historic agricultural buildings (barns). This program also continues to be of great interest to the public with about 5 times as many applications as can be funded each year. This represents an ongoing investment in historic agricultural resources across the State that began in 1992 and is responsible for preserving well over 100 historic agriculture buildings. Vermont's agricultural landscape is one of its most defining features, and historic barns are a dwindling resource, and of great interest to photographers and tourists.

- 3. Cultural Facilities Grants ..... \$600,000

FY 2022 and FY 2023 funds are requested for the Cultural Facilities Competitive Grant Program to be administered by the Vermont Arts Council and made available on a one-for-one matching basis with funds raised from non-state sources. No such grant shall be available for a project receiving funding from any other appropriation of this act. The appropriations shall be awarded on a competitive basis. In recommending grant awards, a review panel shall give priority consideration to applicants who demonstrate greater financial need or are in underserved areas of the State.

The sum of \$1,800,000 is requested to be appropriated to the Department of Buildings and General Services for grant programs:

4. Recreational Facilities Grants Program ..... \$600,000

The Recreational Facilities Grants Program provides competitive grants to municipalities and non-profit organizations to stimulate the creation and development of recreational opportunities in Vermont communities.

5. Human Services and Educational Facilities Grants: Human Services ..... \$300,000

The Human Services and Educational Facilities Grants Program provides competitive grants to municipalities and to non-profit organizations for capital costs associated with the major maintenance, renovation or development of facilities for the delivery of human services and health care needs in Vermont communities.

6. Human Services and Educational Facilities Grants: Education ..... \$300,000

The Human Services and Educational Facilities Grant Program provides competitive grants to municipalities and to non-profit organizations for capital costs associated with the major maintenance, and renovation or development of facilities for the delivery of educational needs in Vermont communities.

7. Regional Economic Development Grant Program ..... \$600,000

The Regional Economic Development Grant program provides competitive grants for capital costs associated with major maintenance, renovation, or planning related to the development of facilities reasonably expected to create job opportunities in Vermont communities. Projects must promote financial engagement in either an individual community or recognized community service area.

The sum of \$600,000 is requested to be appropriated to the Agency of Agriculture for grant programs:

8. Competitive Grants Program: Agricultural Fair Capital Projects ..... \$600,000

Competitive grants are awarded to fairs to make improvements to physical plant and infrastructure. Favored activities are bringing fairs up to code, especially for electricity, sewer and water, ADA, safety, and land purchased. Emphasis is placed on leveraging other funds and generating community support for the fairs through improvements to the infrastructure, which can be utilized by the whole community throughout the year, not just during fair days.

Total Request for FY 2022	\$2,100,000
Total Request for FY 2023	\$2,100,000
Total Request for Section 5 FY 2020 and FY 2021	\$4,200,000

**SECTION 6**

**AGENCY OF EDUCATION**

**SEC. 6 APPROPRIATIONS: AGENCY OF EDUCATION**

The sum of \$100,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Agency of Education.

1. Emergency Aid for School Construction ..... \$100,000

Funds are requested in FY 2022 and FY 2023 to the Agency of Education for funding the state share of aid for emergency school construction projects.

Total Request for FY 2022	\$50,000
Total Request for FY 2023	\$50,000
<hr/> Total Request for Section 6 FY 2022 and FY 2023	<hr/> \$100,000

UNIVERSITY OF  
VERMONT

**SECTION 7**

**UNIVERSITY OF VERMONT**

**SEC. 7 APPROPRIATIONS: UNIVERSITY OF VERMONT**

The sum of \$2,000,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the University of Vermont.

- 1. Construction/Renovations/Major Maintenance.....\$2,000,000

These unspecified funds will address the University’s critical needs for each year’s priority objective in either construction, renovation, or major maintenance. This flexibility allows for the funds to be specifically directed to the institution’s highest priority.

Total Request for FY 2022	\$1,000,000
Total Request for FY 2023	\$1,000,000
<hr/>	
Total Request for Section 7 FY 2022 and FY 2023	\$2,000,000

STATE COLLEGES

**SECTION 8**

**VERMONT STATE COLLEGES**

**SEC. 8 APPROPRIATIONS: VERMONT STATE COLLEGES**

The sum of \$4,000,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Vermont State Colleges.

1. Construction/Renovations/Major Maintenance.....\$4,000,000

These unspecified funds will address the State Colleges' critical needs for each year's priority objective in either construction, renovation, or major maintenance. This flexibility allows for the funds to be specifically directed to the institutions' highest priority.

Total Request for FY 2022	\$2,000,000
Total Request for FY 2023	\$2,000,000
<hr/>	
Total Request for Section 8 FY 2022 and FY 2023	\$4,000,000

NATURAL  
RESOURCES

**SECTION 9**

**AGENCY OF NATURAL RESOURCES**

**SEC. 9 APPROPRIATIONS: AGENCY OF NATURAL RESOURCES**

The sum of \$21,210,925 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Agency of Natural Resources. The Secretary is authorized to direct funds appropriated in this Section to the projects contained in this Section; the individual allocations in this Section are estimates only:

Department of Environmental Conservation (DEC)

- 1. Drinking Water Supply – Drinking Water State Revolving Fund..... \$4,428,925

This ongoing program, initiated in 1997, provides funding for public drinking water systems, for planning, constructing, repairing or improving drinking water systems to enable compliance with state and federal drinking water standards. It leverages federal funds at the rate of \$5 federal to every \$1 of state dollars spent. Funding is critical to maintaining or attaining safe drinking water for Vermont’s public water systems.

- 2. Dam Safety and Hydrology Projects..... \$1,115,000

Requested funds will be used for repair, major maintenance, and specialized engineering assessments of state-owned dams.

- 3. Waterbury Dam Spillway Project.....\$1,500,000

This project consists of partnering with the US Army Corps of Engineers (USACE) for that organization to construct major public safety upgrades to the Waterbury Dam. These repairs are critical to the safety of lives and property downstream. The Waterbury Reservoir is an important recreational facility generating economic activity in surrounding areas. The repairs, once made, will also restore degraded shoreland habitat in the reservoir, and degraded habitat and fisheries in the Little River below the Dam.

Department of Forest, Parks and Recreation

- 4. State Parks Major Maintenance.....\$10,010,000

Rehabilitation and improvements to Department infrastructure assets directly related to the mission of the Department, with a primary focus on State Parks. Funding is spent within four categories of projects including emergency sewage system repair, system improvements on park and forest roads and larger scale initiatives which include renovations and improvements to major structures and facilities including significant day use beaches, campground toilet buildings and customer service initiatives such as cabins and playgrounds.

5. Rustic Cabin Construction Program.....\$1,000,000

The Rustic Cabin Program is a Civilian Conservation Corps-style effort to upgrade infrastructure in our state parks to improve the visitor experience and generate additional revenue while simultaneously providing technical education opportunities for High School students and entry level adult workers in the construction field. Aging and underperforming tent sites are replaced with attractive and comfortable rustic cabins that are ADA compliant and easy to maintain. Students gain valuable hands-on experience in a full range of construction trades as part of a broader classroom curricula and create lasting assets that benefit Vermont and our visitors.

6. 3-Acre Stormwater Rule Compliance.....\$329,000

With the adoption of the 3-Acre Stormwater Rule, Vermont State Parks will require immediate capital investment to appropriately treat approximately 119 acres of impervious footprint estimated by professional engineers in the developed State Park properties that meet the 3-Acre threshold in the Lake Champlain and Lake Memphremagog Watersheds.

7. Gifford Woods and Groton Maintenance Facilities.....\$480,000

These facilities are past the end of their service lives and represent an increasing liability. They provide operations and maintenance support to over half of Vermont State Parks. A combined and coordinated design and planning effort will create an efficiency in replacement of these critical functions resulting in modern, flexible space which meets current applicable work safety standards, with reduced upkeep and energy costs over the current facilities. The Gifford Woods project is the highest priority due to an engineering assessment that prompted contingency planning for emergency re-location of staff and reduced function in the event of structure failure.

#### Department of Fish & Wildlife

8. Fishing Access Areas.....\$200,000

The Department is continuing to work on upgrading its boat ramps and fishing platforms around the state. Many boat ramps need significant repairs and the platforms do not meet current ADA guidelines as they are lacking accessible routes from the parking lots to the platforms. Capital investments are required as federal funding has declined >15% from a high 10 years ago, leaving less money available for infrastructure improvements. As a result, a larger percentage of the program budget must be spent on operation and maintenance leaving infrastructure projects to be pushed back due to lack of funding.

9. Conservation Camps.....\$45,000

Repairs to various Camp infrastructure including the male staff cabin at Buck Lake in Woodbury; the male and female staff cabins, and the shooting range at Kehoe in Castleton.

10. Hatchery Improvements.....\$1,583,000

Various equipment replacement and repairs at the Bald Hill, Bennington, and Salisbury Fish Culture Stations, new lab equipment for the Fish Health Program, and installation of a solar array at the Salisbury Station.

11. Shooting Range Improvements.....\$30,000

Installation of a concrete slab and backdrop for shotgun sighting at the Hammond Cover Shooting Range in Hartland; Adding roofs to the existing structures at the West Mountain Shooting Range in Ferdinand to prevent deterioration of the facilities.

12. Public Access Infrastructure.....\$265,000

Maintenance and improvements to bridges, information kiosks, buildings, wildlife viewing stations and other facilities throughout the 10 Wildlife Management areas consisting of 135,000 acres of land.

13. Buildings and Infrastructure Improvements.....\$225,000

The Fish and Wildlife Department maintains employee residences, workshops, outbuildings, office space and education facilities at its Fish Culture Stations, Wildlife Refuges, and Conservation Camps. Since the tenants of the residences are required to reside in Department-provided housing as a condition of their employment, the Department is committed to providing safe and well-maintained residences for employees and their families.

Total Request for FY 2022	\$10,562,214
Total Request for FY 2023	\$10,648,711
Total Request for Section 9 FY 2022 and FY 2023	\$21,210,925

CLEAN WATER

**SECTION 10**

**CLEAN WATER**

**SEC. 10 APPROPRIATIONS: CLEAN WATER**

The sum of \$22,000,000 is the total amount requested for fiscal years 2022 and 2023 for Clean Water.

The following requests are made for FY2022:

Agency of Food and Markets

- 1. Water Quality Grants.....\$3,436,109

The Agency of Agriculture, Food and Markets provides grants and contracts pursuant to 6 V.S.A. § 4900 for capital expenditure that include the installation of Best Management Practices (BMPs) on farms in Vermont. The BMPs are to protect water quality and could include manure storage, collection, and mitigation of rainwater off buildings, collection and storage of silage leachate, structures to mitigate other on-farm water quality issues. Capital funds also support the Agency’s conservation and grass waterway programs.

Agency of Natural Resources – Department of Environmental Conservation

- 2. Clean Water State Revolving Fund (CWSRF).....\$1,563,891

This ongoing program, which leverages \$5 federal dollars for every \$1 in state match, provides low-interest loans for municipal stormwater, wastewater, and natural resources projects. CWSRF loans support a wide range of water-quality projects that include combined sewer overflow abatement (CSO), plant refurbishment, plant upgrades, sludge and septage improvements, sewer line replacement and extension, pump station upgrades, plant enlargements, stormwater improvements, and municipally sponsored private wastewater disposal systems.

- 3. Municipal Pollution Control Grants.....\$3,300,000

Municipal pollution control grants, authorized by Title 10 Chapter 55, provide financial assistance to Vermont municipalities to fund combined sewer overflow abatement, dry weather flow treatment, and sludge and septage treatment facilities. These grants generally supplement loans that are funded through the Clean Water State Revolving Fund (CWSRF). Municipalities will need to make significant investments in clean water to meet requirements of the EPA total maximum daily limits for phosphorous in Lake Champlain and the 2015 Vermont Clean Water Act (Act 64). Statewide, the total anticipated cost for water quality improvements for municipal wastewater is estimated at over \$1 billion over the next 20 years.

Agency of Natural Resources – Department of Forests, Parks and Recreation

4. Forestry Access Road Improvements.....\$50,000

This project implements best management practices (BMPs) on ANR’s roads and trails network to reduce nutrient and sediment pollution into Vermont waters to meet water quality targets.

Vermont Housing and Conservation Board

5. Agricultural Water Quality Projects.....\$900,000

Farm Improvement - VHCB uses this funding to award grants to farmers for water quality-related capital improvements. Eligible projects include production area improvements, manure management projects, farm equipment and pasture management. Grants typically help farmers pay for project components that state and federal grant programs cannot cover. In cases of significant hardship, the grants may assist farmers who are otherwise unable to fully meet the cost share requirements for priority AAFM BMP or Natural Resources Conservation Service projects.

Farmland Retirement - VHCB will work closely with other partners – particularly AAFM and ANR – to identify agricultural land that is difficult to farm without adversely impacting water quality. These funds allow VHCB to help fund the purchase and/or conservation of such properties with a goal of taking them all or mostly out of production. All grants require perpetual conservation restrictions.

VHCB requests language similar to previous years clarifying that the grants can be used by farmers to meet state or federal program cost share requirements.

6. Land Conservation and Water Quality Projects.....\$1,300,000

Part of VHCB’s core funding, this allocation will be used for grants to eligible applicants (land trusts and other conservation non-profits, towns, certain state agencies) for conservation and water-quality related investments in fee lands and conservation easements. All grants will require perpetual conservation restrictions. Those with surface waters will include specific water quality-related easement provisions such as riparian buffers and wetlands protection zones.

The following request is made for FY2023:

7. Clean Water FY2021 Request.....\$11,000,000

The sum of \$11,000,000 is appropriated in FY 2023 for projects related to implementation of the Vermont Clean Water Act, including stormwater management projects implemented by municipalities and local and regional stormwater utilities; purchase of agricultural easements; stream restoration projects; livestock exclusion fencing; barnyard practices including systems for manure management, silage leachate treatment, and milk house wastewater; wetlands and floodplain restoration; qualified costs related to highway stormwater management; road and culvert projects; salt and sand storage facilities; combined sewer overflow abatement efforts; capital-eligible equipment with demonstrated water quality benefits, such as street sweepers, vacuators, hydro seeders and dragline manure injection systems; and wastewater treatment facility upgrades. Pursuant to 10 V.S.A. 1389(a)(1)(B), the Clean Water Board will recommend clean water projects to be funded by capital appropriations to the Secretary of Administration.

Total Request for FY 2022	\$11,000,000
Total Request for FY 2023	\$11,000,000
<hr/>	
Total Request for Section 10 FY 2022 and FY 2023	\$22,000,000

MILITARY

**SECTION 11**

**DEPARTMENT OF THE MILITARY**

**SEC. 11 APPROPRIATIONS: DEPARTMENT OF THE MILITARY**

The sum of \$1,800,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Department of the Military. The Military is authorized to direct funds appropriated in this Section to the projects contained in this Section.

- 1. Major Maintenance; Land Acquisitions; Renovations  
Federal Match Construction..... \$1,800,000

The requested funds would be used for maintenance, renovations, roof replacements, ADA renovations, and energy upgrades. These projects are generally funded between 75% / 25% and 50% / 50% in Federal / State split, and these improvements directly increase the State bondable Assets with little or no debt load liability to the State budget.

Total Request for FY 2022	\$900,000
Total Request for FY 2023	\$900,000
<hr/>	
Total Request for Section 11 FY 2022 and FY 2023	\$1,800,000

**SECTION 12**

**DEPARTMENT OF PUBLIC SAFETY**

**SEC. 12 APPROPRIATIONS: DEPARTMENT OF PUBLIC SAFETY**

The sum of \$6,168,488 is the total amount requested for fiscal years 2022 and 2023, to be appropriated to the Department of Buildings and General Services for the Department of Public Safety.

1. Williston Public Safety Field Station.....\$5,618,488

This funding is requested to complete construction of the new Williston Public Safety Field Station. Design is expected to be completed in FY21.

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals
					FY '24	FY '25	FY '26- FY '31

Total Appropriation for Fiscal Year(s)	2,150	11,000	5,619					18,769

2. Pittsford: Feasibility Study, Vermont Police Academy.....\$50,000

Conduct a feasibility study to examine whether a roof can be installed over the firing range and a second study to examine how the main building and west cottages can best be utilized.

3. Middlesex: Renovation, Field Station (Berlin).....\$500,000

This funding is requested to augment past funding to provide a paved parking area, security fence and exterior video cameras. The gravel parking and drive need to be reconstructed to provide a proper base for pavement. The fence around a portion of the parking area and the drive is needed to provide additional security to prevent easy access to vehicles parked overnight, temporary storage of vehicle evidence, and an enclosed vehicle sally port to prevent escape from the processing area.

The sum of \$610,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Agency of Agriculture, Food and Markets. The Secretary is authorized to direct funds appropriated in this Section to the projects contained in this Section.

1. Eastern States Exposition - Vermont Building Major Maintenance..... \$610,000

The Vermont building at the Big E operates approximately 25 days per year, houses up to 30 vendors and generates over \$1.8 million dollars annually. Facility Condition Assessment report indicates the building needs approximately \$1.6 million in deferred maintenance over the next ten years. Immediate needs include major repairs or replacement of the slate roof, and restoration of the windows and woodwork on the two-story portion of the building.

**SEC. 14 APPROPRIATIONS: VERMONT RURAL FIRE PROTECTION**

The sum of \$250,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Department of Public Safety for the Vermont Rural Fire Protection Task Force.

- 1. Dry Hydrant Program..... \$250,000

Funds are requested to continue the dry hydrant program administered by the Vermont Rural Fire Protection Task Force. The purpose of the fund is to provide matching funds to municipalities to install dry hydrants adjacent to streams, lakes, ponds and rivers where fire departments can quickly refill pumpers without having to deal with ice, debris, etc. These improvements will enhance both regular and volunteer fire departments in responding to actual incidents. To ensure a sense of local ownership, all funding will require a 25% local match which may be fulfilled through in-kind donations or services.

**DEPARTMENT OF LABOR**

**SEC. 15 APPROPRIATIONS: DEPARTMENT OF LABOR**

The sum of \$1,500,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Vermont Department of Labor.

1. Montpelier: Department of Labor – Facilities Modernization..... \$1,500,000

Funds are requested for the continuation of the renovations to the building at 5 Green Mountain Drive. Built in the 1960’s, the building has never received system upgrades or a major interior refurbishment. In 2018 a Facility Condition Assessment (FCA) was completed and reports that the building will need \$1.9 million in deferred and scheduled maintenance by 2020.

The three-story building is split into many smaller private offices that do not comply with the BGS Space Management Standards and Strategies. Renovating the interior to bring it up to the standards will result in a more collaborative work environment and a more efficient use of space.

Summary Cost Allocation:	Approved Through FY '20	Current Year FY '21	Budget Year FY '22	Budget Year FY '23	Future Requirements			Totals

<hr/> Total Request for Section 12 FY 2022 and FY 2023	<hr/> \$1,500,000

VT HOUSING AND  
CONSERVATION

**SECTION 16**

**VERMONT HOUSING AND CONSERVATION BOARD**

**SEC. 16 APPROPRIATIONS: VERMONT HOUSING AND CONSERVATION BOARD**

The sum of \$3,600,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Vermont Housing and Conservation Board.

- 1. Statewide Housing and Conservation Projects.....3,600,000

VHCB will award capital bill funds to projects that build and improve housing to make it more available and affordable. Projects will include 1) serving those experiencing homelessness and other vulnerable populations; 2) preserving housing at risk of becoming unaffordable due to market pressures, expiring federal contracts or deterioration; 3) creating housing in the most costly and stressed rental markets; 4) providing affordable housing in areas of opportunity; 5) redeveloping distressed properties in the downtowns and village centers; and 6) creating homes that working Vermonters with moderate incomes can afford and buy.

VHCB will also use capital bill funds for the conservation of agricultural lands, diversification of the farm economy, and access to ownership by the next generation of farm and food entrepreneurs. Other conservation projects will support the permanent protection outdoor recreation assets and protect natural areas, forestland, and habitat. Funds will be used for the purchase development rights or fee simple acquisitions.

VHCB requests language similar to previous years permitting the use of capital or appropriations bill funding for housing and conservation projects as needed provided the totals are consistent.

Total Request for FY 2022	\$1,800,000
Total Request for FY 2023	\$1,800,000
<hr/>	
Total Request for Section 17 FY 2022 and FY 2023	\$3,600,000

**SECTION 17**

**AGENCY OF DIGITAL SERVICES**

**SEC. 19 APPROPRIATIONS: AGENCY OF DIGITAL SERVICES**

The sum of \$250,000 is the total amount requested for fiscal years 2022 and 2023 to be appropriated to the Agency of Digital Services.

- 1. VT Center for Geographic Information – Digital Orthophotographic Quadrangle Mapping ..... \$250,000

The requested Capital funding is used to continue the State’s engineering quality Orthophotographic imagery collection at a resolution that supports statewide resiliency planning and high-quality infrastructure management and planning needs of agencies, towns, and Regional Planning Commissions as well as the general public.

The orthophotographic imagery acquisition program is part of a long-term, continuous, imagery collection cycle in the state. Complete statewide imagery collection is completed every five years as 20% of the State is collected every year.

Total Request for FY 2022	\$125,000
<u>Total Request for FY 2023</u>	<u>\$125,000</u>
Total Request for Section 19 FY 2022 and FY 2023	\$250,000

# AUTHORITIES

**SECTION 18**

**REALLOCATION OF FUNDS**

**SEC. 18 REALLOCATION OF FUNDS**

The following sums are reallocated to the Department of Buildings and General Services from prior capital appropriations to defray expenditures authorized in Section 1 of this act:

1.	<u>Public Safety</u>	
	a. 2140991801 - School Safety & Security Grant.....	\$840,000
	b. 2140991901 - School Safety and Security.....	\$34,000
2.	<u>Public Service</u>	
	a. 2240991801 - VTA Wireless Network.....	\$898,451
3.	<u>Department of Labor</u>	
	a. 4100991901 - ACTE Equip Grant Pilot.....	\$262,691
	b. 4100992001 - ACTE Equip Grant Pilot.....	\$299,809
4.	<u>Buildings and General Services</u>	
	a. 1708400210 - 109 and 111 State Street.....	\$45,128
	b. 1808400230 - 109 and 111 State Street.....	\$31,250
	c. 2004200230 - Windsor (SECF): Renovation Cost ANR.....	\$700,000
	TOTAL REALLOCATIONS AND TRANSFERS IN FY 2022.....	<u>\$3,111,329</u>

## **SECTION 19**

### **GENERAL OBLIGATION BONDS, APPROPRIATIONS AND TRANSFERS**

#### **SEC. 19 GENERAL OBLIGATION BONDS, APPROPRIATIONS AND TRANSFERS**

The State Treasurer is authorized to issue general obligation bonds in the amount of \$123,180,000 for the purpose of funding the appropriations of this act. The State Treasurer, with the approval of the Governor, shall determine the appropriate form and maturity of the bonds authorized by this section consistent with the underlying nature of the appropriation to be funded. The State Treasurer shall allocate the estimated cost of bond issuance or issuances to the entities to which funds are appropriated pursuant to this section and for which bonding is required as the source of funds, pursuant to 32 V.S.A. §954.

## SECTION 20

### PROPERTY TRANSACTIONS

#### SEC. 20 DEPARTMENT OF BUILDINGS AND GENERAL SERVICES: PROPERTY TRANSACTIONS

##### **SALE OF BALDWIN STREET PROPERTIES**

The Commissioner of Buildings and General Services is authorized to sell the properties located at 9, 13, 14 and 16 Baldwin Street in Montpelier, Vermont pursuant to the requirements of 29 V.S.A. § 166. The proceeds from the sale shall be appropriated to future capital construction projects.

##### **SALE OF SOUTHEAST STATE CORRECTIONAL FACILITY**

The Commissioner of Buildings and General Services is authorized to sell the property known as the Southeast State Correctional Facility, located at 546 State Farm Road, Windsor, Vermont pursuant to the requirements of 29 V.S.A. § 166. The proceeds from the sale shall be appropriated to future capital construction projects.

## SECTION 21

### MISCELLANEOUS PROVISIONS

#### SEC. 21 DEPARTMENT OF BUILDINGS AND GENERAL SERVICES: MISCELLANEOUS PROVISIONS

##### 133 STATE STREET RENOVATIONS

Acts of 2017 No. 84 Sec. 2 (c) (12) shall be amended as follows: (12) Montpelier, 133 State Street, renovations of mainframe workspace to Office Space (Agency of Digital Services): \$700,000.00

##### SUNSET LEGISLATIVE TEMPORARY EXCLUSIVE USE OF SPACE

Sec. XX. 2020 Acts and Resolves No. 154, Sec. E.126.2 is amended to read:

~~(a)The General Assembly currently finds that it may be necessary for the Legislative Branch to use space in addition to the State House in Montpelier during the 2021–22 biennium to meet social distancing requirements and mitigate the public health impacts of the COVID-19 pandemic.~~

~~(b)The purpose of Sec. E.126.3 of this act is to provide alternative locations during the 2021–22 biennium of the General Assembly for the Legislative Branch to use in order to protect the public health, safety, and welfare during the COVID-19 pandemic while also maintaining the ability of the Legislative Branch to perform its constitutional legislative duties.~~

“[Repealed]”

Sec. XX. 2020 Acts and Resolves No. 154, Sec. E.126.3 is amended to read:

~~(a) Notwithstanding the provisions of 29 V.S.A. §165 and any other provision of law to the contrary, in order to perform its constitutional duties, the Legislative Branch shall have exclusive use of alternative locations during the 2021–22 legislative biennium, including the following:~~

~~(1) 133 State Street:~~

~~(a)Basement: stock room and rooms 012, 016, 015, 021, and 022.~~

~~(b)First Floor: rooms 121, 122, and 126.~~

~~(c)Fourth Floor: board room.~~

~~(d)Fifth Floor: entire floor.~~

~~(2) 109 State Street:~~

~~(a) Basement: rooms B07 and B015 and surrounding space;~~

~~(b) Second floor: rooms 264, 267, 268, and 270.~~

~~(c) Fourth floor: conference room.~~

~~(3) 111 State Street: library stacks room on the second floor.~~

~~(b) The Sergeant at Arms and the Commissioner of Buildings and General Services shall consider ways to address any disruption to the functionality of the Executive and Legislative Branches in shared State building space.~~

~~(c) The authority of the Sergeant at Arms set forth in 2 V.S.A. chapter 62 shall apply in any rooms or spaces occupied by the Legislative Branch.~~

“[Repealed]”

**SECTION 24**  
**EFFECTIVE DATE**

**SEC. 22 EFFECTIVE DATE**

A. This Act shall take effect upon passage.
