Dear Honorable Legislators,

Last year, I presented to you a 2-year Capital Appropriation proposal consistent with the Capital Debt Affordability Committee recommendation of \$159.9M in new debt authorization. Together, by utilizing reallocations and bond premium, we were able to appropriate \$173M in capital projects allowing us to advance many exciting large and small scale projects. I am pleased to present to you this \$6.7M Capital Budget Adjustment proposal funded by reallocations, sale of property, and wise fiscal management by our State Treasurer.

This two year capital budget proposal remains consistent with the recommendation of the Capital Debt Affordability Advisory Committee. The proposal funds many projects, including the move of the Agency of Natural Resources to the National Life Building. Barre City Place, the new headquarters of the Agency of Education, will be ready to move into this spring, followed by completion of the Berlin Vermont Psychiatric Care Hospital opening this summer. The Department of Health Laboratory will be ready this fall, with the rehabilitation of the Waterbury State Office Complex proceeding as planned. In St. Albans, the downtown revitalization project involving the sale and replacement of a state office building and economic benefit to a major employee is moving ahead.

An additional \$1.1M is included to improve Vermont's water quality; these funds will support wastewater and other nonpoint source projects in waters across Vermont by providing loans and grants to municipalities and organizations statewide. Additionally, about \$16M in major maintenance is included to maintain and preserve the tax payer's assets.

I look forward to discussing these and other capital matters with you during this legislative session. This proposed Capital Budget Adjustment will meet our fiscal goals, while serving the needs of our government.

Sincerely,
