ATTACHMENT A – STATEMENT OF WORK

The Contractor shall provide:

Ice melt products for use at State of Vermont buildings shall be:

- Must be solid/granular media, fast acting and effective in melting ice, and promote resistance to refreezing. Product shall exhibit residual (anti-icing) capability.
- Environmentally friendly: ice melt should be gentle on vegetation and turf, and safer for the environment than traditional ice melt products. Product must be safer for human handling than traditional ice melt product, and preferably non-corrosive.

In addition, ice melt products should exhibit the following characteristics:

- Long thaw/freeze cycle: to reduce potential damage to concrete by being resistant to continuous freeze and thaw cycles.

- Product shall not stain carpets and floors, shall leave no greasy residue, shall minimize tracking, and be gentler on both shoes and floors.
